

# UT60-3

## Open High Density Trolleys

**Dimensions (WxHxD): 60.22" x 70.6" x 25.84"**

### Product Description

The UNICAS Open High Density Trolley is engineered to offer a sturdy yet lightweight cart, ensuring the smooth and ergonomic movement of medical supplies throughout the hospital grounds.

### Features

#### Lightweight design

- Effortlessly portable, providing convenience in maneuvering and optimizing ease of use.

#### Handle for easy movement

- Enhances user navigation.

#### Enhanced stability

- Our extended base provides enhanced stability, ensuring secure and wobble-free movement when transporting medical supplies.

#### Protective bumpers

- Corner bumpers act as a cushion, minimizing the impact and reducing the likelihood of damage to both the trolley and its surroundings.

#### Optional Cover Available

- Improves cleanliness of supplies on the trolley.

#### 5" medical grade casters

- (2) Top brake casters (front)
- (2) Swivel casters (back)

#### Durable powder coat finish
